CLINICAL TRIALS INFORMATION SYSTEM (CTIS) SEMINAR

Panhellenic Association
of Pharmacists (PEF)

23 MAY 2022 | 17.30- 20.15 pm through WEBEX

CURRICULUM VITAE (CVs) of presenters

Magkafoula (Foula) Tsoukala

Pharmacist, MSc, Clinical Trials Assessor, National Organisation for Medicines (EOF)

Pharmacist, with a postgraduate specialization in Pharmaceutical Analysis and Quality Control. Employee of the Clinical trials department of the National Organisation for Medicines (EOF), with previous experience in Regulatory Affairs departments in the pharmaceutical sector.

Maria Karafotia

Pharmacist, MSc candidate, Clinical Trials Assessor, National Organisation for Medicines (EOF)

Pharmacist, with an ongoing postgraduate specialization in New Drug Development: Research, Launch & Access. Employee of the Clinical trials department of the National Organisation for Medicines (EOF), with previous experience in Regulatory Affairs, Medical Information and Pharmacovigilance departments in the pharmaceutical sector.

Leonidas Klironomos

Pharmacist, MSc, Head of the Clinical Trials department, National Organisation for Medicines (EOF)

Pharmacist, with a postgraduate specialization in Biostatistics. Employee of the National Organisation for Medicines (EOF) with previous experience in pharmacovigilance since he was Head of the Adverse Reactions department of EOF. He is currently its Head of the Clinical Trials department of EOF. He served as a hospital pharmacist but also as an employee of pharmaceutical companies, such as Schering-Plow S.A. and AstraZeneca in the Pharmacovigilance and Medical Affairs departments.

Pieter Vankeerberghen

Pharmacist, MSc, PhD, Head of Clinical Trials, European Medicines Agency (EMA)

Pieter Vankeerberghen studied Industrial Pharmacy, obtained a Ph.D. in Pharmaceutical Sciences, and holds a master's degree in Informatics. After working for 4 years in R&D, first in Clinical Data Management and later as project manager in human pharmacology, he joined the Belgian authorities in 2000. His roles in sequential order are business process reengineering project leader, transition manager, followed by coordinating the Agency's ICT projects and developments and holding a coordinating role in EU Human/Veterinary e-submissions. From 2016 to July 2020, he led the DG pré R&D department for clinical trials and unmet medical need. In this role he was a Member State Product Owner for the CTIS project. From August 2020 he is head of EMA TDA Data analytics and Methods Taskforce clinical workstream and CTIS programme manager.!!
